

Product Information

fertil dispenser

The Scotts Fertil Dispenser has been designed to meet the specific demands of the professional grower, bringing a revolution to the traditional methods of topdressing fertilizers and other granular products.

The Scotts Fertil Dispenser provides accurate doses of product to all target plants, ensuring even growth of quality plants thanks to its specialised dosing mechanism. Between 600-1,500 plants can be fertilized in one hour!

Ergonomically shaped, the Scotts Fertil Dispenser is also lightweight and simple to use, whilst offering the operator excellent mobility.

Whilst ideal for applications of Osmocote Topdress NT, Osmocote Exact and Specialty Agriculture products, it can also be used for Scotts H₂Gro wetting agent and also granular herbicides.

Applicator Dosage System

- Lightweight
- Simple to operate.
- Ergonomically shaped.
- Topdresses 600-1,500 plants in one hour.

Base Unit Measurements

Length:	37cm
