

Growing Solutions

The Scotts Easy Guide: Strawberry Production With Scotts

- Pot up Tip's in Scott's specially designed Levington Pro.
- Strawberry Tray mix.
- **FEEDING**

Either

Have Osmocote Exact 5/6mth incorporated, to feed the plants for optimum growth.

Or

Use a program of Scott's Agrolution feeds 311, 313, 316 during the production period..

- Where irrigation is inappropriate but feeding necessary - Top Dress with Osmocote Start. This can be done 2 or 3 times during this phase of production.
- Pot on the Tray Plants into Scott's specially designed Levington Pro Strawberry Growing Mix.
