## The Scotts Easy Guide: Using Water Soluble Fertilizers through a Dosatron®

- Select a Scotts water soluble fertilizer:

**Peters Excel**  
Water Soluble Fertilizer

**Peters Professional**  
Water Soluble Fertilizer

**Universol**  
Water Soluble Fertilizer

- Add 2kg to 20 litre tank of water.
- Set at 1% for intermittent feeding (1 part per 100).
- Set at 0.5% for feeding every watering.
- Connect to water supply and start feeding.
